NO DATE IN SIGHT

TIME WHEN CONGRESS WILL ADJOURN IS STILL UNDECIDED.

THE FOOD CONTROL BILL

Considerable Part of Senate Is Opposed to Measure Either in Its Entirety or in Part.

(By W. C. Van Cleve).

Washington, D. C., July 15, 1917.—April, May, June and half of July have passed into history and a date for the adjournment of Congress is not yet in sight. The bill passed by the House to survey the food supplies and increase the production of food stuffs still languishes in conference while the crops to be affected are being laid by, harvested and sold. The second of the series of the food control bills passed by the House and designed to do everything not provided for in the first one will be disposed of by the Senate next Saturday, July 21. What it will look like when it is finally passed is still a matter of speculation. It has had a stormy course since it left the House where it was hurried through under the spur of administration approval.

The fact is that a considerable majority of the Senate is opposed to the bill either in its entirety or to some vital part of it. They are floundering about trying to find some common ground upon which a majority can agree and no such ground has yet been found apparently to which the President will agree. So it is still out upon the bosom of the deep riding the waves and with danger of being foundered at any moment.

The bill is the most remarkable and comprehensive piece of legislation ever undertaken in this country. It proposes an absolutely autocratic rule over all the agencies of production, distribution, sale and consumption of food stuffs. To accomplish this it proposes to suspend every contravening law enacted since the foundation of the Government. It is of course a war measure only. The food administrator, though he may never exercise the powers to be conferred, will nevertheless, as the bill was originally drawn, have power over every food or feed plant from the planting of the seed to the final consumption of the crop. A measure so comprehensive may be a good thing during the war. A good many think it will be and a good many think not. Time and the manner in which it is administered will answer.

In the meantime the administrator has been appointed and is busy building up a big organization. This has perhaps had something to do with accentuating the opposition in some quarters. Mr. Hoover came here from England, where he has been spending a great deal of his time. He maintains a magnificent home in London. He is a native of California, a Republican in politics, and a mining engineer by profession and training. As such he has shown ability. He has become associated with mining projects in Australia, South Africa and elsewhere that have made him immensely wealthy. When thousands of Americans were caught in London at the outbreak of the war and everything was confusion and consternation, the authorities there appealed to him as a man of leisure to help them out. He did so and helped to get the stranded Americans back home. Then he was delegated to take charge of the distribution of food supplies sent for the benefit of the suffering Belgians. He succeeded well at that and, when the United States entered the war, he appeared on this side of the Atlantic and was touted as the one and only man to administer a food control measure.

Since some of the European countries fighting Germany are consuming vastly more than they are producing, it has been found necessary to put into effect a vigorous supervision over the production and consumption of food stuffs. The same also applies to Germany. Where there is not enough to satisfy all appetites, the weaker fish must be protected from the sharks. The matter of fixing a maximum price at which products must be sold has been found a failure in England. The matter of fixing a minimum price that the producer shall receive is a different proposition in the United States with its fifty million producers and its endless variety of products from that in a country whose consumption is greater than its production.

According to all reports, Mr. Hoover succeeded admirably in superintending the distribution of the supplies sent to Belgium and has familiarized himself with the systems of food control in Europe. It is well however to remember that Belgium at the present time is not larger than the District of Columbia. It is smaller than Nodaway county, and if handling the supplies sent there is worthy of note, the more comprehensive undertaking in these great United States is a proposition of tremendous consequence.

Granting that control is a desirable thing for wheat, corn, and other farm supplies, it is difficult to understand why it may not be applied with equally good results over the products of the mines, the oils and cotton. Coal, oil and copper are absolutely essential to a successful war. Italy has been unable to continue her offensive efforts because she can not get sufficient coal and she has been paying a hundred dollars per ton freight on what has been shipped from this country to Italy. Cotton is a food product both for man and beast. Cotton seed oil is in general use as a substitute for lard and cotton seed meal is the staple stock feed in the South. Then, too, cotton is the one thing needful in the making of explosives.

The disposition too, to go outside the scope of the food control scheme and attach to it all sorts of reforms has not only delayed but endangered the life of the bill. The attempt to use it as a vehicle for national prohibition has stirred up more trouble than the others. A conservation step in this direction would have met but little opposition it seems. The country would very generally approve a prohibition on the distillation of liquors and strong drinks during the war and perhaps for all time but there is a fierce opposition when it comes to beers and light wines.

The wine growers, of whom there are many in California, Ohio and other states, assert that wines are made from grapes that will go to waste if not made into wines and that they can not be marketed in any other way, and, finally, that wines carry only from ten to fifteen per cent alcohol, less than most of the patent medicines and are rated by medical men as wholesome and desirable tonics. The beer men point to the fact that beers contain only three or four per cent of alcohol, that they have a distinct food content and that confirmed drunkards do not come from the ranks of the beer drinkers. They furthermore point out that beers are made from barley and hops chiefly and that neither of these articles are much used on the American table as foods. They declare that the American people will have some sort of a beverage and, if beers are discontinued, something more harmful will likely come into use.

So the merry war goes on. Something must de done in the Senate next Saturday under the agreement to vote on the bill that day. The Senate however has a way of taking a recess from day to day and it frequently happens that one legislative day runs over a period of many calendar days in that distinguished body.

YOUNG MOTHER, 21, DIES

Mrs. Fred Horn of Burlington Junction Succumbs to Uremic Poisoning — Has One Child.

Mrs. Fred Horn, 21 years old, died at 6:30 o'clock this morning at her home in Burlington Junction, following a two days' illness of uremic poisoning.

Mrs. Horn is survived by her husband and one little child, her parents, Mr. and Mrs. Al Dredge of Elmo, two brothers, Walker Dredge, of near Clearmont and Arlen Dredge of near Elmo and one sister, Margie Dredge at home.

Misses Georgia Ellen and Etta Trusty of Burlington Junction will be the week-end-guests of Mr. and Mrs. Grant Trusty of Maryville.

HIS FIRST LETTER

MR. AND MRS. MATT STURM HEAR FROM SON IN FRANCE.

TELLS OF VOYAGE ACROSS

Says Ships Were Guarded by 10 Warships—Submarine Fired on Them but Missed.

The following letter dated June 25 was received by Mr. and Mrs. Matt Sturm of near Ravenwood, whose son, Emmett Sturm, has arrived in France:

"We have been on this boat three weeks and a day today and we have seen nothing but water. There are about six boat loads of soldiers or about 25,000 men. We have been guarded by ten warships all the way over. One night a submarine fired at us, but missed. We were mighty lucky.

"William Todd is still with me on this boat and I get to see him quite often. Of course it is needless to say I haven't seen a paper for a month and I haven't had a collar on since I left St. Louis.

"Please don't worry about me, as it would make me feel bad. Of course I realize that I am in an embarrassing situation, but I suppose a great many will be drafted from there.

"I am positive I will be back home in a few months. We will get some training over here and may probably be sent back. I wouldn't take a lot for my experience.

"I have felt good all the time except that I was a little sea sick at first.

"Everyone is confident here that the war will be over in a few months. Of course, I would give anything to be home, but I haven't regretted that I enlisted, which I did of my own free will. I sure will be proud of my trip when I get back. It is nearly the Fourth of July and rather cool here. They gave us heavy underwear and overcoat and some gloves. Haven't seen a pillow or a feather bed since I left, but I am getting along just as well as if I had them.

"A cook was going down stairs the other day and a fellow dropped an empty dish pan. It rolled and bounced and hit the cook on the head. We nearly died laughing. I heard another fellow say he would cut a fellow's head off and throw it in his face. That sounded funny, too. So you see we have a chance to laugh once in a while.

"There are about 4,000 on this boat. Figuratively speaking, 'we are all in the same boat,' and it is hard to get lonesome. Lots of kids that are with us are only 17 years old, some are rather old men and a great number are married, especially the officers.

Haven't received a gun yet, but will later on, and it will be a revolver."

TO FIGHT U-BOATS

WILSON IS UNDECIDED AS TO THE PLAN FOR OFFENSIVE.

TO TAKE STEPS AT ONCE

Navy Officials Say That Submarine Is Averaging A Million Tons of World Shipping A Month.

Special to The Democrat-Forum.

Washington, July 19.—President Wilson is undecided as to whether the United States shall attempt a general offensive against the German submarines. That a plan for such an action prepared by the general staff of the navy is now before the president is admitted, but no information is given out. Such an offensive might succeed in curtailing the increased inroads that the submarines are making into the reserve supplies of the world's shipping. Necessarily something must be done quickly to check the menace. It would consist of operations by destroyers, airplanes, small dirigibles and light cruiser submarine chasers. Navy officials said the submarines were averaging about a million tons a month.

Near Vote on Food Bill.

Washington, July 19.—Senatorial oratory which held up the food bill five weeks was limited to 10-minute speeches as preliminary to a vote on the measure Saturday. The fight will center on an effort to strike from the controlled list all commodities except fuel and food.

PARDONS 16 SUFFRAGISTS.

Washington, July 19.—President Wilson pardoned at noon today sixteen suffragists who were arrested for picketing at the White House and who were sentenced to sixty days in the workhouse.

Want Embargo Modified.

Washington, July 19.—Mexican representatives are making a determined organized effort to get embargo on arms and munitions of war to Mexico lifted or modified. They are also trying to get the government to make a loan to Mexico or the sanction of it by American bankers.

Want Facts About Row.

Washington, July 29.—Senator Smoot's resolution asking for facts in the Denman-Geothals row from the president was adopted.

Progress in Shipping Conference.

Washington, July 19.—At the conclusion of a three-hour conference with Goethals by the shipping board, Chairman Denman announced that good progress had been made.

Administration Victory.

Washington, July 19.—The administration won a decisive victory today when the senate rejected an amendment to retain iron, street, farming tools, hemp binder twine on the controlled list.

FOR FARM LABOR

E. M. CLAYPOOL WILL TAKE CHARGE OF EMPLOYMENT.

ASKED TO FILL BLANKS

Employers and Employees Will Be Brought Together Through Efforts of Defense Council.

C. A. Clark of Columbia in charge of the labor commission department of the State Council of Defense was in Maryville yesterday making arrangements for the establishment of a local clearing house for farm labor.

Since the Commercial club has already provided a bureau of farm labor in Maryville, Secretary E. M. Claypool was named chairman of the Committee on Farm Labor of the County Council of Defense with headquarters at the Commercial club office. Thus the first step was taken in preparing against what may develop into a serious labor situation in the event of a long war.

Since the County Council of Defense, which in turn is a unit of the National Council of Defense, the wide resources behind Chairman Claypool in providing farmers with necessary labor in taking care of crops will be the best kind of assurance of genuine service in keeping them supplied with labor during the duration of the war.

Mr. Clark especially emphasized the necessity of farmers filling out the blanks provided by the committee so that in case they need help they will be supplied at once.

The chief value of this listing of farm labor will be the ability of the county to shift its own farm labor rather than supplying its needs from outside sources and in turn sending its available farm labor to other counties. Such economy will be more keenly appreciated in the event that the war develops into a long draw out struggle, in which case there can be no doubt that the demand for a large army and for factory labor will bring about great difficulties in supplying sufficient farm labor.

Those desiring employment on farms and those in need of farm help should fill out application blanks, which can be secured at the Commercial club office. In case a farm labor shortage develops in this country similar organizations in other county seats may offer their surplus to fill the requirements in this county.

MUST CUT WEEDS AND BRUSH

Road Overseers Are to Remove During August, All Weeds Along Roadside—The Hedge Law.

All road overseers and county highway engineers in Missouri are required by the new road law to have cut and removed during the month of August each year, all brush and weeds found growing along the roadside. Wherever square corners or sharp turns obstruct the view and endanger life and limb of persons traveling on the public road, it shall be the duty of county highway engineers and road overseers to have the same rounded and all obstructions removed. If the owner of land refuses permission to round a corner, highway engineers and road overseers are authorized to have such land condemned.

A fine of not less than $50 nor more than $500 may be imposed upon the owner of a hedge fence along or near the right of way of a public road if he fails to cut same down to a height of not more than 5 feet between the first days of May and August of each year. This is a provision of one of the new road laws enacted by the last legislature, and may have been overlooked by local authorities. Less than ten days remain in which to have this work done, and the law further provides that any prosecuting attorney who shall fail or refuse to institute a suit to compel the owner of a hedge fence to cut the same down to the height required by law shall be removed from office by the governor, and some other person shall be appointed to fill the vacancy thus created. These provisions are found in section 63, page 464, Session Laws 1917.

Mrs. Joseph Leuck and children, Margaret, Mary and Joseph, will return this evening from a several days' visit with Mrs. Leuck's sister, Mrs. Thomas O'Brien, living near Conception.

BRING UP POLK'S TOTAL

Non-Subscribers Are Urged to Turn in Money to Fund to Make Up the Deficit.

Polk township is more than $300 under her allottment in the Red Cross campaign. This could be remedied if those who have neglected to give to the cause could be persuaded to turn in their donations now.

Another way to raise our total is for those who have subscribed as annual members at $1 to donate another dollar and receive the Red Cross magazine. If a number of the dollar subscribers would do this the fund would reach its full allottment very soon.

NORMAL PLAY DAY SUCCESS

Large Crowd of Townspeople Witnesses Parade and Program at Chautauqua Park Yesterday

A large number of townspeople went out to Chautauqua Park yesterday afternoon to witness the parade and program in connection with the annual Play Festival of the State Normal students.

Weather conditions were ideal for the carrying out of the program which was the most entertaining put on by the students for some time. The parade from the State Normal school to the Chautauqua grounds was led by the Fourth Regiment band and the military drill squad, the Red Cross girls in their white dresses and dainty caps and the county organizations were all in line.

The military numbers on the program were then given. "The Conference of Nations," was a picturesque and original number, eighty girls in costume taking part. The flag salute given by the faculty and the students was impressive and beautifully carried out. Mr. and Mrs. Arthur Darnell as "Uncle Sam" and "Liberty" took their parts well.

Original songs and yells by the county groups were in order for a part of the afternoon, and after the concert by the band, the groups were assigned to different places on the grounds and took part in games and contests. A picnic supper closed the festivities.

PLAN COMMUNITY CHORUS

Question Is Being Discussed By Maryville Singers Who Favor Chorus Work.

This is a question that is being discussed among the talented members of Maryville at present. In fact, many have gone so far as to discuss the matter with Marcus Nielsen, teacher of voice at the Maryville Conservatory, and any enterprise of this kind will have his hearty co-operation.

Three things in Maryville gravitate toward the success of community singing. First the great amount of talent that could be enlisted in a movement of this kind; second, the services of an instructor, Mr. Nielsen, who has had much experience in chorus work, and third, the band which would be a great help in the training.

A plan has been suggested by those interested in the work that the weekly practices be held during the band concert hour. In this way the singers could be more easily brought together and interest in the movement would be stimulated by the inspiration of an audience.

It is possible that the movement will be taken up in Maryville within a very short time if the interest continues to grow.

W. B. Howard Breaks Arm.

William B. Howard suffered a broken left arm yesterday afternoon when the hay rake which he was driving turned over. Mr. Howard was working on the Will Espey farm, south of Maryville when the accident happened.

Files Attachment Suit.

An attachment suit was filed in circuit court yesterday afternoon wherein Charles Hyslop, the plaintiff, asks for $133.15 from Elizabeth Weakline a non-resident of the county.

Mrs. G. W. Bowmer went to St. Joseph today on business.

DRAFT TOMORROW

DRAWING IN WASHINGTON WILL BEGIN AT 9:30 O'CLOCK.

BOARD'S POWER LIMITED

Local Men May Pass Only On Physical Disability and Absolute Dependancy of Relatives.

(BULLETIN).

Special to The Democrat-Forum.

Washington, July 19.—General Crowder announced this afternoon that the drawing for the selective draft would be made at 9:30 o'clock tomorrow morning in room 226 in the Senate office building.

The local exemption board received from Washington today a filing case in which the original registration cards belonging to the 2,280 men who come under the selective draft in Nodaway county will be placed. This case was fixed up b ythe board this morning and the cards are now ready for immediate reference.

The board will have very limited powers in the matter of exemptions. They will not be allowed to pass upon anything but physical disability, and absolute dependancy. Occupational exemptions will be left entirely with the district board, which will be at St. Joseph.

Should Learn Serial Numbers.

Registrants throughout the country are urged to acquaint themselves with the serial number allotted each person by exemption boards. The number placed on the registration cards is not indicative of the man's order of liability. He must learn not only the figure assigned him by the board but also the number of registrants in his district.

A rehearsal of the lottery process recommended was held some days ago in order to determine the amount of time necessary and to develop any weak spots in the scheme, but pending its approval no details will be revealed. There are indications that a more complex arrangement than yet has been outlined publicly will be employed in the drawing in the interest of perfect fairness.

MAY REMOVE CAPITOL.

Russian Cabinet Will Have Special Session to Consider Removal.

Stockholm, July 19.—A Petrograd dispatch said the Russian cabinet was going to convene a special session to consider the removal of the capital.

Report Capture of Prisoners.

Petrograd, July 19.—The capture of 228 Austrians and Germans and three machine guns Tuesday was reported by the war office.

FORMER RESIDENT DIES.

Christopher C. Baker, Who Used to Live at Barnard Dies in Iowa.

Christopher C. Baker 82 years old, a retired farmer of Maitland and a lifelong resident of this state, died at 2 o'clock Tuesday morning at Goldfield, Iowa, where he was visiting his daughter, Mrs. W. G. Comin. Death was the result of a stroke of paralysis suffered ten days ago. Mr. Baker was born Nov. 26, 1834, in Daviess county, Mo., and lived in that county until 1856, when he removed to Barnard, in Nodaway county. In 1908 he removed to Maitland, in Holt county. He was a veteran of the Civil War. Besides the daughter at whose home he died he is survived by his wife, and five sons, A. L. Baker, Okanogan, Wash.; C. E. Baker, Barnard, Mo.; E. B. Baker, Maitland, Mo.; Dr. M. G. Baker, Kelso, Wash.; and Dr. Paul Baker, Snohonish, Wash. Burial was held at Maitland at 10:30 o'clock Wednesday morning.

Announcing
Ladies' Tailor

MR. J. J. TURNER

formerly of Pawnee, Neb., has become associated with the Becker Cleaning Company as a special ladies' tailor. Mr. Turner is an expert in the production of tailor-made clothes for women and has had more than 15 years experience in this character of work alone.

The rooms at the Becker Cleaning Company will be remodeled and complete arrangements made for the convenience of customers. Through the work of Mr. Turner the women of this community will be able to obtain tailoring work not ordinarily obtainable in a city of this size.

In addition to his work as a ladies' tailor he has also had five years experience as a tailor for men, and while confining his efforts principally to ladies' tailoring he will be able to do a certain amount of men's work.

THAT BAD BACK

Do you have a dull, steady ache in the small of the back—sharp, stabbing twinges when stooping or lifting—distressing urinary disorders? For bad back and weakened kidneys Maryville residents recommend Doan's Kidney Pills. Read this Maryville man's statement.

H. C. Cornett, painter and paperhanger, 805 North Buchanan street, Maryville, says: "In my work I have a great deal of reaching and standing to do and my back began to hurt me so severely across my hips I was greatly handicapped. I couldn't bend or lift without pain. My kidneys were much too frequent in action, breaking my rest at night and leaving me all tired out in the morning. I used Doan's Kidney Pills and secured fine benefit."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Cornett had. Foster-Milburn Co., Props., Buffalo, N. Y.

Young Women Awaiting The Great Crisis

Of all the vital times in life, the birth of a baby is the climax of nature's most wonderful evolution. After a period of anxious waiting, the hour arrives for the advent of a new life. Nature must be aided during this waiting period if the pain and danger of the crisis is to be avoided.

Three generations have found great relief from the many discomforts of approaching motherhood, by the safe, time-honored massage, "Mother's Friend".

It gently softens every fibre, cord, tendon and ligament. The drawn skin becomes soft and elastic. Tension and strain upon the expanding abdominal muscles is relieved when baby arrives; morning sickness or nausea usually is not felt and the crisis is passed with infinitely less pain and danger.

"Mother's Friend" has been used by expectant mothers with the greatest success for over forty years.

Get a bottle from the druggist today and write the Bradfield Regulator Co., Dept. E, 200 Lamar Building, Atlanta, Ga., for a valuable book brimful of useful information. The book will be mailed to you without charge. Do not by any means neglect to begin the use of "Mother's Friend"; the preparation is undoubtedly a real and wonderful aid to nature in her work.

NO DATE IN SIGHT

TIME WHEN CONGRESS WILL ADJOURN IS STILL UNDECIDED.

THE FOOD CONTROL BILL

Considerable Part of Senate Is Opposed to Measure Either in Its Entirety or in Part.

(By W. C. Van Cleve).

Washington, D. C., July 15, 1917.—April, May, June and half of July have passed into history and a date for the adjournment of Congress is not yet in sight. The bill passed by the House to survey the food supplies and increase the production of food stuffs still languishes in conference while the crops to be affected are being laid by, harvested and sold. The second of the series of the food control bills passed by the House and designed to do everything not provided for in the first one will be disposed of by the Senate next Saturday, July 21. What it will look like when it is finally passed is still a matter of speculation. It has had a stormy course since it left the House where it was hurried through under the spur of administration approval.

The fact is that a considerable majority of the Senate is opposed to the bill either in its entirety or to some vital part of it. They are floundering about trying to find some common ground upon which a majority can agree and no such ground has yet been found apparently to which the President will agree. So it is still out upon the bosom of the deep riding the waves and with danger of being foundered at any moment.

The bill is the most remarkable and comprehensive piece of legislation ever undertaken in this country. It proposes an absolutely autocratic rule over all the agencies of production, distribution, sale and consumption of food stuffs. To accomplish this it proposes to suspend every contravening law enacted since the foundation of the Government. It is of course a war measure only. The food administrator, though he may never exercise the powers to be conferred, will nevertheless, as the bill was originally drawn, have power over every food or feed plant from the planting of the seed to the final consumption of the crop. A measure so comprehensive may be a good thing during the war. A good many think it will be and a good many think not. Time and the manner in which it is administered will answer.

In the meantime the administrator has been appointed and is busy building up a big organization. This has perhaps had something to do with accentuating the opposition in some quarters. Mr. Hoover came here from England, where he has been spending a great deal of his time. He maintains a magnificent home in London. He is a native of California, a Republican in politics, and a mining engineer by profession and training. As such he has shown ability. He has become associated with mining projects in Australia, South Africa and elsewhere that have made him immensely wealthy. When thousands of Americans were caught in London at the outbreak of the war and everything was confusion and consternation, the authorities there appealed to him as a man of leisure to help them out. He did so and helped to get the stranded Americans back home. Then he was delegated to take charge of the distribution of food supplies sent for the benefit of the suffering Belgians. He succeeded well at that and, when the United States entered the war, he appeared on this side of the Atlantic and was touted as the one and only man to administer a food control measure.

Since some of the European countries fighting Germany are consuming vastly more than they are producing, it has been found necessary to put into effect a vigorous supervision over the production and consumption of food stuffs. The same also applies to Germany. Where there is not enough to satisfy all appetites, the weaker fish must be protected from the sharks. The matter of fixing a maximum price at which products must be sold has been found a failure in England. The matter of fixing a minimum price that the producer shall receive is a different proposition in the United States with its fifty million producers and its endless variety of products from that in a country whose consumption is greater than its production.

According to all reports, Mr. Hoover succeeded admirably in superintending the distribution of the supplies sent to Belgium and has familiarized himself with the systems of food control in Europe. It is well however to remember that Belgium at the present time is not larger than the District of Columbia. It is smaller than Nodaway county, and if handling the supplies sent there is worthy of note, the more comprehensive undertaking in these great United States is a proposition of tremendous consequence.

Granting that control is a desirable thing for wheat, corn, and other farm supplies, it is difficult to understand why it may not be applied with equally good results over the products of the mines, the oils and cotton. Coal, oil and copper are absolutely essential to a successful war. Italy has been unable to continue her offensive efforts because she can not get sufficient coal and she has been paying a hundred dollars per ton freight on what has been shipped from this country to Italy. Cotton is a food product both for man and beast. Cotton seed oil is in general use as a substitute for lard and cotton seed meal is the staple stock feed in the South. Then, too, cotton is the one thing needful in the making of explosives.

The disposition too, to go outside the scope of the food control scheme and attach to it all sorts of reforms has not only delayed but endangered the life of the bill. The attempt to use it as a vehicle for national prohibition has stirred up more trouble than the others. A conservation step in this direction would have met but little opposition it seems. The country would very generally approve a prohibition on the distillation of liquors and strong drinks during the war and perhaps for all time but there is a fierce opposition when it comes to beers and light wines.

The wine growers, of whom there are many in California, Ohio and other states, assert that wines are made from grapes that will go to waste if not made into wines and that they can not be marketed in any other way, and, finally, that wines carry only from ten to fifteen per cent alcohol, less than most of the patent medicines and are rated by medical men as wholesome and desirable tonics. The beer men point to the fact that beers contain only three or four per cent of alcohol, that they have a distinct food content and that confirmed drunkards do not come from the ranks of the beer drinkers. They furthermore point out that beers are made from barley and hops chiefly and that neither of these articles are much used on the American table as foods. They declare that the American people will have some sort of a beverage and, if beers are discontinued, something more harmful will likely come into use.

So the merry war goes on. Something must de done in the Senate next Saturday under the agreement to vote on the bill that day. The Senate however has a way of taking a recess from day to day and it frequently happens that one legislative day runs over a period of many calendar days in that distinguished body.

HIS FIRST LETTER

MR. AND MRS. MATT STURM HEAR FROM SON IN FRANCE.

TELLS OF VOYAGE ACROSS

Says Ships Were Guarded by 10 Warships—Submarine Fired on Them but Missed.

The following letter dated June 25 was received by Mr. and Mrs. Matt Sturm of near Ravenwood, whose son, Emmett Sturm, has arrived in France:

"We have been on this boat three weeks and a day today and we have seen nothing but water. There are about six boat loads of soldiers or about 25,000 men. We have been guarded by ten warships all the way over. One night a submarine fired at us, but missed. We were mighty lucky.

"William Todd is still with me on this boat and I get to see him quite often. Of course it is needless to say I haven't seen a paper for a month and I haven't had a collar on since I left St. Louis.

"Please don't worry about me, as it would make me feel bad. Of course I realize that I am in an embarrassing situation, but I suppose a great many will be drafted from there.

"I am positive I will be back home in a few months. We will get some training over here and may probably be sent back. I wouldn't take a lot for my experience.

"I have felt good all the time except that I was a little sea sick at first.

"Everyone is confident here that the war will be over in a few months. Of course, I would give anything to be home, but I haven't regretted that I enlisted, which I did of my own free will. I sure will be proud of my trip when I get back. It is nearly the Fourth of July and rather cool here. They gave us heavy underwear and overcoat and some gloves. Haven't seen a pillow or a feather bed since I left, but I am getting along just as well as if I had them.

"A cook was going down stairs the other day and a fellow dropped an empty dish pan. It rolled and bounced and hit the cook on the head. We nearly died laughing. I heard another fellow say he would cut a fellow's head off and throw it in his face. That sounded funny, too. So you see we have a chance to laugh once in a while.

"There are about 4,000 on this boat. Figuratively speaking, 'we are all in the same boat,' and it is hard to get lonesome. Lots of kids that are with us are only 17 years old, some are rather old men and a great number are married, especially the officers.

Haven't received a gun yet, but will later on, and it will be a revolver."

TO FIGHT U-BOATS

WILSON IS UNDECIDED AS TO THE PLAN FOR OFFENSIVE.

TO TAKE STEPS AT ONCE

Navy Officials Say That Submarine Is Averaging A Million Tons of World Shipping A Month.

Special to The Democrat-Forum.

Washington, July 19.—President Wilson is undecided as to whether the United States shall attempt a general offensive against the German submarines. That a plan for such an action prepared by the general staff of the navy is now before the president is admitted, but no information is given out. Such an offensive might succeed in curtailing the increased inroads that the submarines are making into the reserve supplies of the world's shipping. Necessarily something must be done quickly to check the menace. It would consist of operations by destroyers, airplanes, small dirigibles and light cruiser submarine chasers. Navy officials said the submarines were averaging about a million tons a month.

Near Vote on Food Bill.

Washington, July 19.—Senatorial oratory which held up the food bill five weeks was limited to 10-minute speeches as preliminary to a vote on the measure Saturday. The fight will center on an effort to strike from the controlled list all commodities except fuel and food.

FOR FARM LABOR

E. M. CLAYPOOL WILL TAKE CHARGE OF EMPLOYMENT.

ASKED TO FILL BLANKS

Employers and Employees Will Be Brought Together Through Efforts of Defense Council.

C. A. Clark of Columbia in charge of the labor commission department of the State Council of Defense was in Maryville yesterday making arrangements for the establishment of a local clearing house for farm labor.

Since the Commercial club has already provided a bureau of farm labor in Maryville, Secretary E. M. Claypool was named chairman of the Committee on Farm Labor of the County Council of Defense with headquarters at the Commercial club office. Thus the first step was taken in preparing against what may develop into a serious labor situation in the event of a long war.

Since the County Council of Defense, which in turn is a unit of the National Council of Defense, the wide resources behind Chairman Claypool in providing farmers with necessary labor in taking care of crops will be the best kind of assurance of genuine service in keeping them supplied with labor during the duration of the war.

Mr. Clark especially emphasized the necessity of farmers filling out the blanks provided by the committee so that in case they need help they will be supplied at once.

The chief value of this listing of farm labor will be the ability of the county to shift its own farm labor rather than supplying its needs from outside sources and in turn sending its available farm labor to other counties. Such economy will be more keenly appreciated in the event that the war develops into a long draw out struggle, in which case there can be no doubt that the demand for a large army and for factory labor will bring about great difficulties in supplying sufficient farm labor.

Those desiring employment on farms and those in need of farm help should fill out application blanks, which can be secured at the Commercial club office. In case a farm labor shortage develops in this country similar organizations in other county seats may offer their surplus to fill the requirements in this county.

MUST CUT WEEDS AND BRUSH

Road Overseers Are to Remove During August, All Weeds Along Roadside—The Hedge Law.

All road overseers and county highway engineers in Missouri are required by the new road law to have cut and removed during the month of August each year, all brush and weeds found growing along the roadside. Wherever square corners or sharp turns obstruct the view and endanger life and limb of persons traveling on the public road, it shall be the duty of county highway engineers and road overseers to have the same rounded and all obstructions removed. If the owner of land refuses permission to round a corner, highway engineers and road overseers are authorized to have such land condemned.

A fine of not less than $50 nor more than $500 may be imposed upon the owner of a hedge fence along or near the right of way of a public road if he fails to cut same down to a height of not more than 5 feet between the first days of May and August of each year. This is a provision of one of the new road laws enacted by the last legislature, and may have been overlooked by local authorities. Less than ten days remain in which to have this work done, and the law further provides that any prosecuting attorney who shall fail or refuse to institute a suit to compel the owner of a hedge fence to cut the same down to the height required by law shall be removed from office by the governor, and some other person shall be appointed to fill the vacancy thus created. These provisions are found in section 63, page 464, Session Laws 1917.

Mrs. Joseph Leuck and children, Margaret, Mary and Joseph, will return this evening from a several days' visit with Mrs. Leuck's sister, Mrs. Thomas O'Brien, living near Conception.

BRING UP POLK'S TOTAL

Another way to raise our total is for those who have subscribed as annual members at $1 to donate another dollar and receive the Red Cross magazine. If a number of the dollar subscribers would do this the fund would reach its full allotiment very soon.

NORMAL PLAY DAY SUCCESS

Large Crowd of Townspeople Witnesses Parade and Program at Chautauqua Park Yesterday

A large number of townspeople went out to Chautauqua Park yesterday afternoon to witness the parade and program in connection with the annual Play Festival of the State Normal students.

Weather conditions were ideal for the carrying out of the program which was the most entertaining put on by the students for some time. The parade from the State Normal school to the Chautauqua grounds was led by the Fourth Regiment band and the military drill squad, the Red Cross girls in their white dresses and dainty caps and the county organizations were all in line.

The military numbers on the program were then given. "The Conference of Nations," was a picturesque and original number, eighty girls in costume taking part. The flag salute given by the faculty and the students was impressive and beautifully carried out. Mr. and Mrs. Arthur Darnell as "Uncle Sam" and "Liberty" took their parts well.

Original songs and yells by the county groups were in order for a part of the afternoon, and after the concert by the band, the groups were assigned to different places on the grounds and took part in games and contests. A picnic supper closed the festivities.

PLAN COMMUNITY CHORUS

Question Is Being Discussed By Maryville Singers Who Favor Chorus Work.

This is a question that is being discussed among the talented members of Maryville at present. In fact, many have gone so far as to discuss the matter with Marcus Nielsen, teacher of voice at the Maryville Conservatory, and any enterprise of this kind will have his hearty co-operation.

Three things in Maryville gravitate toward the success of community singing. First the great amount of talent that could be enlisted in a movement of this kind; second, the services of an instructor, Mr. Nielsen, who has had much experience in chorus work, and third, the band which would be a great help in the training.

A plan has been suggested by those interested in the work that the weekly practices be held during the band concert hour. In this way the singers could be more easily brought together and interest in the movement would be stimulated by the inspiration of an audience.

It is possible that the movement will be taken up in Maryville within a very short time if the interest continues to grow.

W. B. Howard Breaks Arm.

William B. Howard suffered a broken left arm yesterday afternoon when the hay rake which he was driving turned over. Mr. Howard was working on the Will Espey farm, south of Maryville when the accident happened.

Files Attachment Suit.

An attachment suit was filed in circuit court yesterday afternoon wherein Charles Hyslop, the plaintiff, asks for $133.15 from Elizabeth Weakline a non-resident of the county.

Mrs. G. W. Bowmer went to St. Joseph today on business.

DRAFT TOMORROW

DRAWING IN WASHINGTON WILL BEGIN AT 9:30 O'CLOCK.

BOARD'S POWER LIMITED

Local Men May Pass Only On Physical Disability and Absolute Dependancy of Relatives.

(BULLETIN).

Special to The Democrat-Forum.

Washington, July 19.—General Crowder announced this afternoon that the drawing for the selective draft would be made at 9:30 o'clock tomorrow morning in room 226 in the Senate office building.

The local exemption board received from Washington today a filing case in which the original registration cards belonging to the 2,280 men who come under the selective draft in Nodaway county will be placed. This case was fixed up b ythe board this morning and the cards are now ready for immediate reference.

The board will have very limited powers in the matter of exemptions. They will not be allowed to pass upon anything but physical disability, and absolute dependancy. Occupational exemptions will be left entirely with the district board, which will be at St. Joseph.

Should Learn Serial Numbers.

Registrants throughout the country are urged to acquaint themselves with the serial number allotted each person by exemption boards. The number placed on the registration cards is not indicative of the man's order of liability. He must learn not only the figure assigned him by the board but also the number of registrants in his district.

A rehearsal of the lottery process recommended was held some days ago in order to determine the amount of time necessary and to develop any weak spots in the scheme, but pending its approval no details will be revealed. There are indications that a more complex arrangement than yet has been outlined publicly will be employed in the drawing in the interest of perfect fairness.

MAY REMOVE CAPITOL.

Russian Cabinet Will Have Special Session to Consider Removal.

Special to The Democrat-Forum.

Stockholm, July 19.—A Petrograd dispatch said the Russian cabinet was going to convene a special session to consider the removal of the capital.

Report Capture of Prisoners.

Petrograd, July 19.—The capture of 228 Austrians and Germans and three machine guns Tuesday was reported by the war office.

FORMER RESIDENT DIES.

Christopher C. Baker, Who Used to Live at Barnard Dies in Iowa.

Christopher C. Baker 82 years old, a retired farmer of Maitland and a lifelong resident of this state, died at 2 o'clock Tuesday morning at Goldfield, Iowa, where he was visiting his daughter, Mrs. W. G. Comin. Death was the result of a stroke of paralysis suffered ten days ago. Mr. Baker was born Nov. 26, 1834, in Daviess county, Mo., and lived in that county until 1856, when he removed to Barnard, in Nodaway county. In 1908 he removed to Maitland, in Holt county. He was a veteran of the Civil War. Besides the daughter at whose home he died he is survived by his wife, and five sons, A. L. Baker, Okanogan, Wash.; C. E. Baker, Barnard, Mo.; E. B. Baker, Maitland, Mo.; Dr. M. G. Baker, Kelso, Wash.; and Dr. Paul Baker, Snohonish, Wash. Burial was held at Maitland at 10:30 o'clock Wednesday morning.

Announcing
Ladies' Tailor

MR. J. J. TURNER

formerly of Pawnee, Neb., has become associated with the Becker Cleaning Company as a special ladies' tailor. Mr. Turner is an expert in the production of tailor-made clothes for women and has had more than 15 years experience in this character of work alone.

The rooms at the Becker Cleaning Company will be remodeled and complete arrangements made for the convenience of customers. Through the work of Mr. Turner the women of this community will be able to obtain tailoring work not ordinarily obtainable in a city of this size.

In addition to his work as a ladies' tailor he has also had five years experience as a tailor for men, and while confining his efforts principally to ladies' tailoring he will be able to do a certain amount of men's work.

Young Women Awaiting The Great Crisis

Of all the vital times in life, the birth of a baby is the climax of nature's most wonderful evolution. After a period of anxious waiting, the hour arrives for the advent of a new life. Nature must be aided during this waiting period if the pain and danger of the crisis is to be avoided.

Three generations have found great relief from the many discomforts of approaching motherhood, by the safe, time-honored massage, "Mother's Friend".

It gently softens every fibre, cord, tendon and ligament. The drawn skin becomes soft and elastic. Tension and strain upon the expanding abdominal muscles is relieved when baby arrives; morning sickness or nausea usually is not felt and the crisis is passed with infinitely less pain and danger.

"Mother's Friend" has been used by expectant mothers with the greatest success for over forty years.

Get a bottle from the druggist today and write the Bradfield Regulator Co., Dept. E, 200 Lamar Building, Atlanta, Ga., for a valuable book brimful of useful information. The book will be mailed to you without charge. Do not by any means neglect to begin the use of "Mother's Friend"; the preparation is undoubtedly a real and wonderful aid to nature in her work.

THAT BAD BACK

Do you have a dull, steady ache in the small of the back—sharp, stabbing twinges when stooping or lifting—distressing urinary disorders? For bad back and weakened kidneys Maryville residents recommend Doan's Kidney Pills. Read this Maryville man's statement.

H. C. Cornett, painter and paperhanger, 805 North Buchanan street, Maryville, says: "In my work I have a great deal of reaching and standing to do and my back began to hurt me so severely across my hips I was greatly handicapped. I couldn't bend or lift without pain. My kidneys were much too frequent in action, breaking my rest at night and leaving me all tired out in the morning. I used Doan's Kidney Pills and secured fine benefit."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Cornett had. Foster-Milburn Co., Props., Buffalo, N. Y.

Financial Preparedness

in the United States really began with the organization of the Federal Reserve System. It will be complete when every citizen is doing his share towards the maintenance of the system.

By depositing your money with us you can help directly in developing and strengthening it, as we are required to keep on deposit with our Federal Reserve Bank in Kansas City a portion of your balance with us.

At the same time, and without cost, you benefit directly from the protection the system affords us.
